

## Taking the Piddle

To add that little extra something, Purbeck has piddled in its sorbet. Not literally of course – the Dorset company has

created a new Piddle Sorbet which blends its farm spring water sorbet with beer from the Dorset Piddle Brewery. Also new for 2009 are three ice cream flavours: British Damson ice cream made with dusky damsons from the fens, a 'love it or hate it' Liquorice flavour and a Serious White Chocolate ice cream made from 'extra substantial' white chocolate chunks.
